DCMT FLEX RATING 9

Top end freeride board for tearing up the whole mountain. Stiff and turns well but you need to know how to drive it. If you know what you're doing, charge this hard on the piste and in powder. Incorporating a technical wood core, with triaxial weave and hyper powered rails on a 7200 sintered base.

AVAILABLE LENGTHS

145/149/153/156/159

WAIST WIDTH

244/245/247/249/251

DCMT FLEX RATING 5

Twin tipped freestyle/jib board. Fairly soft flexing but still holds together so as not to be 'floppy'. Great for rails, dryslope and terrain park antics. Fatter steel edges and hardwood along the edges provide resilience and a wood core with carbon enhanced triaxial weave keeps it poppy and responsive. Sintered 2000 base and standard two-year warranty from Option.

142/148/151/154/157/160

WAIST WIDTH

244/246/247/248/249/250

DCMT FLEX RATING 5

Classic, soft flexing, freestyle jib stick. Suited to urban features, artificial slopes and soft summer parks. A simple wood core, biaxial weave and a sintered 2000 base to keep you sliding. Aggressive riders will be looking for something stiffer but the Motive would suit jibbers and beginner freestylers.
