TESTERS' FLEX RATING 6

An easy-going, directional, all mountain cruiser. Hardcore park rats will find the directional shape off-putting but beginner to intermediate riders will enjoy the medium flexing, easy ride. Advanced riders will find this a little twitchy at high speed. Overall a mellow, directional cruiser.

TESTERS' FLEX RATING 5

A popular freestyle board on the test, 'Great for jibbing, real nice mellow flex but still snappy enough for popping shizzle. Perfect for indoor shred carves and park. For advanced riders wanting something softer or an entry level ripper... torsionally pretty strong.'
A stable, poppy, freestyle offering.

WILD DUCK POP UP £279

AVAILABLE LENGTHS

155/158/161

WAIST WIDTH

257/257/257

DCMT FLEX RATING 4

A jib orientated true twin that will suit anyone from hardcore freestyle hacks to less experienced riders looking for a forgiving descent. Mellow flexing with good pop in the nose and tail and strong torsional feel. Light Poplar wood core and a sintered P-Tex 2000 base.

DCMT FLEX RATING 4

An entry-level, all mountain shredder. Poppy and surprisingly solid charging in challenging terrain, this board is really designed for learning and lazy carves. It incorporates a Poplar wood core, a sintered P-Tex 2000 base in a directional shape and comes in at great value.
